Example. To find the Time of High Water at Limerick, March 26th, 1738, I look in the Kalendar, and find the Moon to be 6 Days old; then under Limerick in this Table, and opposite to 6 Days of the Moon's Age, I find it will be High Water at 18 min. past 9 at Night.

N. B. The Bar of Dublin, Arklow, Wicklow, Drogheda, Dundalk, Hollyhead, Orfordness, and the Downs, are set down in the Kalendar part for every day in the year, being computed from the Moon's Southing.

Of the Incorporated SOCIETY in

Dublin, for promoting English Protestant Schools in Ireland.

Duke of DEVONSHIRE, President.

ONE great End proposed by these Charter, or Working-Schools, next to the bringing up the Children of the poor Natives in the Fear of God, is to cure that Habit of Idleness which is too prevalent among them, and by which they are too often betrayed into Thieving, and other enormous Vices.

In the School at *Castledermot*, there are 10 Boys and 10 Girls, clothed, dieted, and lodged. The Boys cultivate that Portion of Ground that belongs to the School. The Girls are employed in Spinning, and other Parts of Housewifery, and have a Web of Cloth of their own Manufacture, the Weaving only

excepted. Two Hours of the Day are spent in reading.

In the School of *Minola*, there are 12 Boys and 12 Girls. The former employ'd in gardening, weeding, planting Potatoes, cutting Turf, &c. The Girls in spinning, knitting, and preparing Materials for their own, and the Boys Cloathing; by which Means the Expence of their Maintenance is in some measure reduced already.

In the School of *Shannon-Grove*, 10 Boys, 10 Girls, under the Protection of *William Bury*, Esq; No Article of Expence has been charged to the Society for their Food, for the whole Year 1736, nor for 71 Yards of Linnen wrought by them for their own Use, the Weaving only excepted. They have 1 Acre bestowed, and rent 19. On these are sown Potatoes, Bear, Oats, and Beans, which largely supply the Necessities of the Children.

In the School of *Ballynabinch*, are 10 Boys, 10 Girls, dieted, clothed, and lodged at the Society's Expence. The former employed in digging, sowing, and ditching; the Girls in spinning and knitting, and are at this Time wearing Linnen spun with their own Hands.

In the School of *Castle Canfield*, are 10 Boys, and 10 Girls, who attend as Day Scholars. Cloathing, Bedding, Books, Working Tools, &c. are sent thither by the Society.

There are several other Schools erected, and resolved to be erected.

An Abstract of the Society's Proceedings, from the 6th of Feb. 1733, (when the Charter was opened) to 25 March, 1737, is printed, by Geo. Grierson, together with an alphabetical List of their Names, and may be seen with the following Persons, who are authorized to receive Benefactions for their Use, viz.

The Principal FAIRS of IRELAND.

Collected, every One, either from the Information of Gentlemen and Dealers, or from the Returns made by the Surveyors in their several Districts, which the Honourable-Commissioners of His Majesty's Revenue were pleased to give me, for the Purpose of printing the Fairs with the greater Correctness in this Almanack: Which Original Returns are still in my Custody, for Vouchers.

JOHN WATSON:

All the Fairs that happens on any one Day, are for the most part put alphabetically, so as to be found readily: k. c. is King's County; q. c. Queen's County; And in the other Counties, only the three or four first Letters are set down.

For the greater Ease of my Customers, I first set down the Day of the Month, and then the initial Letters of the Days of the Week, on which the Fairs will happen in 1738. Every one that falls out on Sunday, is of course kept on the following Monday; as is also a considerable Number of those that happen on Saturday.

Query, If the Fairs of the County of Mayo that fall out on Saturday, are put off till the following Monday.

JANUARY, 1738.
